

**REMARKS**

Examiner Michalsky is thanked for the courtesies extended during the interview of March 4 where the outstanding rejections were discussed. Examiner Michalsky disagreed with my previous contention of certain limitations in claim 1 of Application No. 10/079,163 precluded that claim from reading on Fig. 14 of that application as well as the disclosure of this instant application. In particular, the Examiner felt that the partition was part of the housing and thus the limitation in said claim 1 read on the instant application. In view of this Examiner position, the undersigned hereby withdraws its contentions concerning readability on this invention and there being different inventions. Accordingly, the rejected claims herein have been added to Serial No. 10/079,163 via RCE practice. These claims in Serial No. 10/079,163 thus overcome the rejections made in this application. Further, the Examiner's Interview Summary appears to be a complete and accurate summary of the interview process.

It is respectfully requested, if necessary to effect a timely response, that this paper be considered as a Petition for an Extension of Time sufficient to effect a timely response and shortages and other fees be charged, or any overpayment in fees be credited, to the Account of Barnes & Thornburg, Deposit Account No. 10-0435 (3177-69461).

Respectfully submitted,

BARNES & THORNBURG LLP
